#### Aufgabe:

##### A film review

**Your school website has a new feature, it recommends films and TV series in English. Write a short review of a film or an episode of a TV series you have recently seen. Write at least 120 words about**

- the topic of the film,
- the main characters,
- the acting,
- any special features (soundtrack, pictures, ...),
- what you liked/didn't like about the film,
- who you think would like to watch the film, too.

#### Lösungsvorschlag:

Toy Story 3 is the third animated film about a boy called Andy and his toys. In the film he is 17 and therefore he goes to college. He decides to clear up his toys. The toys accidentally end up in a dangerous situation. After lots of drama, action, love and funny moments, Woody, Andy's favourite toy, helps save the others. It is very clever how they use a computer to make the images because the animations seem so real. The voices were really good and fitted the animations perfectly. I liked how the film made me feel lots of different emotions. I think both adults and young people would enjoy watching the film because there is something for everyone.
